

## CRADLEPOINT'S RESILIENCY ADVANTAGES

**High Availability:** Cradlepoint offers solutions that balance the strengths of wired and wireless networks through WAN Diversity™ – diversifying multiple WAN paths through 3G/4G/LTE, Ethernet, and WiFi as WAN all in one flexible, cost-effective device.

**Enterprise-class security:** Cradlepoint's sophisticated security protocols are purpose-built for PCI Compliance, which is required for credit card processing applications.

**Connected to the cloud:** Today's organisations benefit from the advantages of virtualised and cloud-based enterprise services and applications, which require uninterrupted connectivity. Cradlepoint solutions allow you to maximise the benefits of the cloud without losing your connection when you need it most.

## RESILIENCY SOLUTIONS

As a cloud-managed solution, Cradlepoint balances the strengths of wired and wireless networks through WAN Diversity™ – the convergence of 3G/4G/LTE, Ethernet (DSL, Cable, T1, MetroE), and WiFi as WAN, all delivered through a single networking device.

**Using dual modem technology, enterprises have the ability to:**

- + Deploy multiple wireless backup connections to help you achieve 99.99 per cent uptime
- + "Cut-the-Wire" for combined high-speed networks from diverse operators
- + Load balancing provides greater throughput for more users and demanding applications

"IF THE INTERNET CONNECTION IS DOWN, OUR STORES AREN'T ABLE TO PERFORM MANY OF THEIR DAILY OPERATIONS. WITH THE CRADLEPOINT [SOLUTION], I CAN GET THE STORE UP AND OPERATIONAL WITHIN MINUTES."

– OSVALDO HURTADO,  
DIRECTOR OF STORE IT INFRASTRUCTURE  
AMERICAN APPAREL

Cradlepoint is the global leader in cloud-delivered 3G/4G/LTE networking solutions, providing business-grade, secure connectivity to distributed enterprises. Cradlepoint was the first to pioneer and fully enable high-speed LTE in its solutions to maximise the potential of the cloud for businesses worldwide.
